

LOOKING FOR A
“BITTER IDEA”
FOR YOUR NEXT
CREATION?

ANGOSTURA AROMATIC BITTERS IS A BLEND OF RARE TROPICAL HERBS AND SPICES (NO SALT) originally created by Dr. Johann Siegert in 1824. It is used to flavor or season a wide variety of food dishes and certain drinks — its own taste is usually unidentifiable in the finished dish — but the food simply tastes better.

Mizkan is now pleased to exclusively offer Angostura Aromatic Bitters as part of our long line of food ingredients available to enhance your culinary creations.
